### DON'T LET THE MOVEMENT DROP

Congratulations to West Palm Beach Constable Bob Egnor and to its inter-club committee for efforts to trace down reports of cruelty to cats by persons taking them for training racing greyhounds. Recurrent reports of mutilation of cats for such a purpose were followed by arrest by Egnor of one greyhound trainer. According to West Palm Beach newspapers, the trainer, after questioning, was released by County solicitor W. E. Roebuck. Mr. Roebuck was quoted as saying "the trainer did buy four cats but that they were not stolen and there is no evidence the cats were used cruelly in training the dogs."

Is it possible for a cat to be used in training a dog without cruelty to the cat?  
Even though no conviction was obtained

in this case and the defendant must be presumed to have been innocent, the fact that the inter-club committee and constable are on the job in this inhumanitarian cause may discourage any such atrocious practices as have been rumored at the dog track.

The greyhound racing season is over now, but the committee should stay on the job; try to get any needed legislation passed at Tallahassee and keep a lookout on dog trainers here as soon as the first one arrives next fall—Lake West Herald.

### DID YOU PAY YOUR \$109?

If you're an average American, \$109 was your share of the \$11,200,000,000 paid in taxes in the year ended June 30, 1943.

If you paid more, the chances are that it was because you received more benefits than the average certainly it means that under the conditions maintained by our institutions, you have proposed beyond the average.

Americans never paid taxes more cheerfully than they paid them this year. Never before has it been quite so clear that what we get for our tax money, namely, support of those institutions which make the American way of life possible, is precious beyond price. —Tallahassee Democrat.

## TOO LATE TO CLASSIFY

By Russell Kay

Allied reverses in Greece and North Africa and the admitted success of Nazi submarine warfare in the Atlantic has brought a new threat to "Liberty" years and a name a step closer during the past week.

Greco and Italians, concerned with their own interests, who take no heed of the "handwriting on the wall" and in the hour of crisis are giving aid and comfort to the enemy to set the stage for their own death together with that of 130,000,000 fellow citizens.

We view with increasing alarm the strikes and lockings that are slowing up our defense program and we name "Labor" for this or "Industry" for that. Both terms take in a tremendous amount of territory.

We should remember that "Labor" is not just the "A. F. of L." or the "C. I. O." as a few leaders would have you believe. The combined membership in both groups is a pitifully small minority when compared with "Labor" in the broader sense. There are millions of free-born American citizens who perform the nation's tasks who never saw a "card" or paid tribute for the right to carry one.

By the same token we should keep in mind the fact that "Industry" is not just Allys-Chalmers or Henry Ford or General Motors. American "Industry" embraces every establishment, large and small, that contributes to the nation's needs.

America's trouble today is not with labor as a whole, nor with industry as a whole, but with groups or minorities in each camp. Radical, trouble-making labor agitators and racketeers, some communists, are endeavoring to dominate both industry and industrial labor to their own selfish ends, enforcing their will and exacting tribute and on the other hand, a few selfish, greedy industrial leaders concerned with their own profits who refuse to look upon labor with other justice or tolerance.

Both groups battling for their own individual advantage are jeopardizing the welfare of 130,000,000 Americans and entirely ignore the fact that the nation's youth, calling young men from the desk and the battlefield to our military forces, at \$21 a month and die on the battlefield if he is not defending the \$21 a year labor agitator and the \$21,000 a year industrial profiteer.

It is difficult to understand so governments' attitude toward strikes and industrial hostilities when the life of the nation rests in the balance. Only a thin band of a courageous group will side with this problem.

Let Uncle Sam stop the daily practice of extracting excessive contribution fees by racketeering, by labor leaders and permit those to work who are eager to be motivated. Let him inform both labor and industry that work stoppage will not be tolerated and that disputes and bickering must be settled peacefully at the conference table rather than with bricks and tear gas. Let it be understood that defense work must go on even if it becomes necessary to conscript both industry and labor as we have conscripted our armed forces, and let such conscription carry the same rigid regulation and the same pay as that applying to the military conscript.

Industry in particular. Prison guards over an excessive profit today, nor do French labor leaders extract tribute from workers and indulge in sit-down strikes. The matter of earnings and wages and

is determined by a sub-laborant enforced at bayonet point while the conscription camp yawns for both the French industrialist or the French worker who even acts as though the situation was not to be his taking.

America must provide ships and guns and planes and countless other materials. She can't do it with industry and labor quiting work to call each other names. The right to strike may be democratic, but the right to WORK is equally sacred.

Soldiers can't shoot guns that have not been made or fly planes that are still blueprints. Either we will come to our senses and work as one industry, labor or soldier, shoulder to shoulder, or we will go down as surely and completely as have those other nations who have the knee to greed and personal interest ignoring the welfare of the nation as a whole. God grant that America WOULD come to her senses. If we fail, it will be because we deserve to fail because we are weak and stupid and so immersed in our own self-interest that we do not observe the glorious heritage that is ours.

### TRUCK FILE

A semi delivery truck caught fire in Palooka, Saturday afternoon. The blaze was inside the truck container, and when the salesman opened the door, he was greeted by a big volume of smoke and popping bottles. The fire department soon extinguished the blaze before much damage was done to the truck.

### Is Winner Of Spelling Contest

Betty Jean McLarty, daughter of Mr. and Mrs. George McLarty of Palooka, a member of the eighth grade of the Junior High school, is the champion speller of the school and just participate in the county school spelling bee at West Palm Beach on April 26th, when representatives will be chosen to compete in the big contest at Miami where state winners will be determined.

The Junior and Senior high schools are set for the evening of May 2nd. This is one of the big events of the year and in all ways one of great enjoyment for the time it looked as if the event would need be omitted this year, for lack of finances, but the Junior boys would not be deterred or moved, a school president, so accepted and bestirred themselves and finally landed the money.

Each year the State Superintendent of Public Instruction sends out to the various high schools of the state what is termed Senior Placement tests. The senior class this week tangled up with this examination. They are given for the purpose of determining the work of the school, the ability of the student and how the senior line up among themselves from an educational standpoint.

### Elks Have New Home Completed

Don Hillier and Son, who had the contract for the remodeling of the Ransdale rink property into a home for Palooka Lodge of Elks, are now finishing the project and have done an attractive job. Entering the main hall, which is most pleasant and finished in pleasing and attractive manner, it shows that the lodge has applied the same rigid regulation and the same pay as that applying to the military conscript.

Industry in particular. Prison guards over an excessive profit today, nor do French labor leaders extract tribute from workers and indulge in sit-down strikes. The matter of earnings and wages and

### State Entitled To 1 More Congressman

Under the recent red and census the population of Florida increased to such an extent that the state is now entitled to an additional member in the National House of Representatives. Whether the

Legislature will choose to have a congressman at large, or create a new congressional district, is still a mooted question. Nevertheless, plans are under consideration for another district, which if presented and passed, would do considerable changing of present district boundaries, as well as change the numbers of the districts.

### TRANSFERRED

Sergeant C. T. Durham, who has been stationed at Ft. Benning, Columbus, Ga., has been transferred to Camp Wheeler at Macon, Ga., where he is a member of the Tenth Training Battalion of the regular army. He is assigned to training instruction duties.

### HEALTH UNIT

Belle Glade people are anxious to get a County Health Unit organized and functioning, and have made inquiry of the steps and procedure necessary to get started, and have appealed to the County Board of Commissioners for aid in the project.

### NAME VICE-PRESIDENT

At a meeting of the Palm-Lake Baptist Sunday school Association at Belle Glade, Mrs. Luther Jones of Belle Glade, was elected as vice president in charge of the Intermediate Department work of the Association. Rev. U. E. Reed of Lake Worth, was the speaker of the evening.

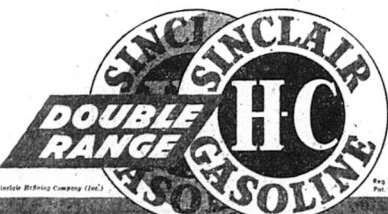

## "You get Double Range Anti-Knock!"

Every motorist knows that there are two important ranges of acceleration where highest anti-knock performance is needed. For example, you need knockless power at 10 to 45 miles per hour for acceleration in traffic and 45 to 90 miles per hour for passing other cars and climbing hills. Some gasolines may give high anti-knock in one range but not in the other. But the new Sinclair H-C combines high anti-knock performance in both ranges. With the

Double-Range anti-knock in H-C you also get other remarkable qualities in performance. You get quick starting — rapid pick-up — smooth power — and long mileage. Try a complete tankful of the new Double-Range H-C in your car today. Your nearby Sinclair dealer sells it at regular price. You will find it adds to the pleasure of driving and helps reduce motoring expense as well! Ask for the new Sinclair H-C.

American Republics where an employee are identified as participating in anti-American activities.

2. The handling of advertising of United States companies in such a manner that the revenue derived from such advertising is not used to foster anti-American propaganda in the Republics.

It is vitally important at this time that the Commerce Department in Washington and the State Department work closely to analyze the Latin American situation.

the countries to the north. It was necessary for us not only to learn the language of the southern countries but also to appreciate the southern point of view. The Latin American has a very distinctive and delicate culture. Their development and growth have been a part in the expansion of their country. This development is largely influenced by southern European countries and their culture.

I think it highly essential that we learn to play with the Latin American. That is, for example, we learn to play the game of chess. We learn to appreciate the Latin American's interests in the game of chess. We learn to appreciate the Latin American's interests in the game of chess. We learn to appreciate the Latin American's interests in the game of chess.

Latin American countries or to help them to cooperate in the use of their resources in their republics. What can we do to help them? This defense? Does the United States stand ready to provide technical and financial assistance? Does the United States stand ready to provide technical and financial assistance? Does the United States stand ready to provide technical and financial assistance?
